

We have a passion for telling the stories of small coffee farmers. We want to put names and faces to the farmers and families that provide our favorite beverage.

We want to introduce them to our customers, share their stories, and start a conversation about how coffee gets from the tree to the cup. We believe that businesses, churches, families and individuals can play a role in making an impact in the coffee world, one farmer at a time.

If you wish to support our efforts, make a phone order or just learn more please contact us at info@biblesandcoffee.com or call 573-364-5100.
